### (A) CliniShield® Dispenser

The CliniShield® Dispenser is a dependable, efficient wall mounted dispenser which will not drip.

- The CliniShield Dispenser accommodates all 1600 ml and 1000 ml CliniShield Products.
- 1600 ml bottle is more economical than other 1000 ml or 800 ml sizes; requires fewer refills and less maintenance.
- Valve/pump system is designed not to drip.
- Transparent bottle allows for quick & easy view of soap level.
- Bottle locks securely into dispenser.
- Complies with the Americans with Disabilities Act which requires less than 5 lbs. of pressure to operate.
- Dispenser removes from backplate for dishwasher safe cleaning, (up to 160° F in top shelf) allowing for a high standard of hygiene.

**NOTE:**

**Potential Citation by State Surveyors**

CMS (Centers for Medicare and Medicaid Services) Medicare and Medicaid Programs; Fire Safety Requirements for Certain Health Care Facilities; Amendment, Final Rule, prohibits alcohol-based hand rubs from being used in close proximity to an electrical source. (Federal Register, Vol. 71, No. 184, pp. 55326 - 55341.

**Disposal Issue With Battery Replacement**

Health Care facilities need to take care to dispose of old batteries properly as they are a hazard to the environment.
